This path is the result of an experimentation of post-earthquake urban regeneration, a young exhibition of international works on the walls of public buildings rebuilt after the events of the 2012 earthquake.

The itinerary winds through the streets of the capital, mainly inside the Resistance Park and the Rainbow Park, to discover the artistic murals made here from 2016 to 2018: works by Ericailcane, Bastardilla, Giorgio Bartocci, Luca Zamoc, Basik , Mat!, Francesco Bevini.
